**ALL CAREGIVERS REGISTERED WITH POTTER NURSING SERVICE:**

Please accept our gratitude for your efforts with helping to prepare our clients for Hurricane Matthew. Last week was a stressful time for all of us. We would like to especially thank those caregivers who rearranged their schedules and took time away from their families to be with their clients during the storm.

Fortunately Hurricane Matthew did not directly impact our area, but it is always smart to be prepared. If the storm would have moved just 50 miles closer to our coast, we would have had to contend with widespread power outages, major flooding and damage to our homes and offices.

Our thoughts and prayers go out to those of you with loved ones in Haiti, Cuba, The Bahamas and others parts of the United States whose lives were disrupted by this devastating hurricane.

Sincerely,

Potter Nursing Service Management and Staff
